

# THE FINE ART PRINT

We propose a fine art print of your selected artwork printed on an acid-free 100% natural cotton paper and using the Digigraphy printing process to provide a very high quality and faithful reproduction (re-edition?).

Prints come in two dimensions: 30x40cm or 40x60cm (including margins on sides)

The print is rolled and protected by a crystal paper and then packed in a smart cardboard roll ready to be offered and secured to travel with.

The label on the roll is printed on the same paper as the edition. It will allow your customer to have an idea of the high standard quality of the paper and to provide him with useful information about the artwork, the artist, the printing process, the print number...

This double sided paper allow us also to print your logo and information about the artwork at the back of it.

According to your choice, you can decide to print of a numbered or a limited edition.
